Towel dispenser RTD-0307

Towel dispenser is a new type electric product integrating high technology and green environmental protection, from beautiful exterior design to all-functional and easy-to-use system of heating, refrigeration and automatic sterilization. It offers you clean and comfortable disposable disinfected soft towel at any moment, avoiding bacteria infection brought by unclean napkin and repeatedly used towels. It embodies new consumption trends of stressing science & technology, humanism and environmental protection of modern life and is a revolution in small electric appliance trade and consumption field. With high content of science and technology, our towel machine consists of six systems of microcomputer control, cutting, rolling, heating (refrigeration), spraying and ultraviolet sterilization.
