Vertical Wet Tissue Machine

This machine is suitable to be used in the fields of medicine, hygiene materials and cater trade etc. Such as medicine plaster, disinfectant cotton paper, disinfectant napkin tissue, toilet tissue and fragrant napkin tissue etc. The packed bags are four sides sealing, which are even and perfect.

It incorporates a cross deviation correction device with two degrees of freedom and an intelligent longitudinal photoelectric trademark positioning system. Continuous trademark mode and fixed trademark mode can be switched at will. It owns the functions of folding and cutting napkin tissue in the chute, forming, dropping, cutting, printing and counting (with count preset).
